

STUDENT ATTENDANCE

Background

Regular attendance by students in all their classes enhances their performance and contributes substantially to their rate of progress. While students have a right to access an educational program, they also have a responsibility to attend classes regularly and pursue their studies in a diligent manner.

Specific provisions for regulating the attendance of students shall be developed in consultation with students, staff and parents' advisory councils as appropriate.

Procedures

1. An accurate daily record of attendance shall be kept for each student in the student information system.
2. Principals are expected to have in place a system for verifying reasons for non-attendance on a daily basis.
 - 2.1 For all grades, unexplained absences will be reported to the office.
 - 2.2 In the elementary schools, attendance shall be done in the morning and afternoon. All unexplained absences during the school day shall be reported to the office immediately after the absence becomes apparent. All reasonable efforts must be immediately made to determine the whereabouts of students reported absent.

4. Parents are to be encouraged to take the initiative in advising the school when students are absent.
5. In cases of unexplained absences, suspected truancy or excessive absences occurring, the parent or guardian shall be contacted as soon as a pattern of poor attendance becomes evident, as determined by the school's attendance procedures.
6. Students with attendance concerns, whether excused or unexcused, should be referred to the School Based Team
7. Initial investigation of reasons for extended student absence from school shall be the responsibility of the Principal. An annotated log is to be kept of each contact with the home.
