

STUDENTS' COUNCILS

Background

The experience of participation in Students' Councils and Students' Council activities within schools is supportive and complementary to the education of students and can contribute to the preparation of students to become socially responsible citizens in a changing world. The District, therefore, encourages the formation of Students' Councils in schools.

The District believes that, in every District secondary school, the Students' Council is to be an elected body and that every full-time student of the school is to be eligible for nomination.
