

How to Clear Cache and History on iPad & iPhone Safari

Mobile

1. Open the **"Settings"** app on the iPhone or iPad.
2. Scroll down to **"Safari"** and choose that.
3. Navigate down in Safari settings to tap on **"Clear History and Website Data"**
4. Tap to confirm that you want to **"Clear History and Data"** to clear the cache from Safari.

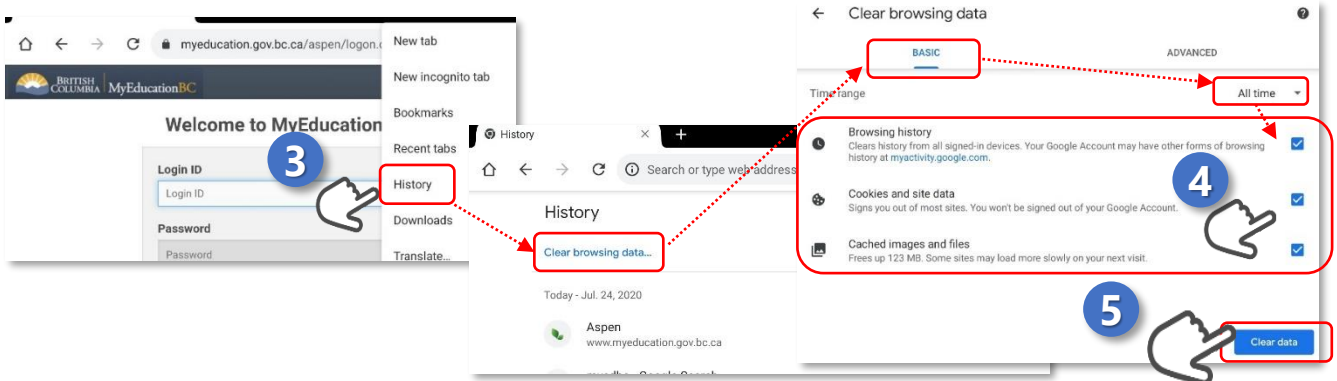

On iPad or iPhone

1. On your iPad or iPhone, open the Chrome app.
2. Tap on the **3 dots** icon (bottom right corner)
3. Tap **History** > Clear browsing data.
4. Tap and Select **All time** > Make sure there's a checkmark next to **"Browsing History"**, **"Cookies, Site Data"**, and **"Cached Images and Files."**
5. Tap **Clear Browsing Data**.

On Android tablet or smartphone

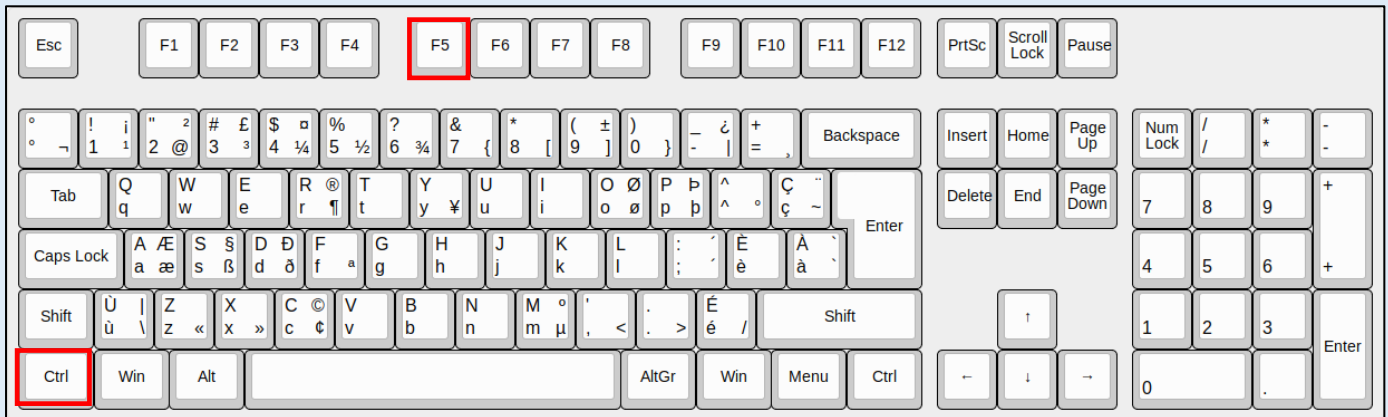

1. On your Android tablet or smartphone, open the Chrome app.
2. Tap on the **3 dots** icon (top right corner)
3. Tap **History** > Clear browsing data.
4. Tap **BASIC** > Tap and Select **All time** > Make sure there's a checkmark next to **"Browsing History"**, **"Cookies, Site Data,"** and **"Cached Images and Files."**
5. Tap **Clear data**.

To Clear Browser Cache
