PART E

One of Teck's core values is *Courageous Safety Leadership*. All of our personal decisions affect those around us including: family, peers, friends, co-workers, teachers, and the community at large. How are you a **COURAGEOUS LEADER** in your community and in your everyday life? How do the decisions you make affect those around you? What are some things you've done that took some courage in a tough situation with your peer group, in your life, or when you knew something wasn't right? Please attach to this Application, a 500 word essay explaining what it means to be a courageous leader and how you are, and plan to be, a courageous leader going forward in your life.

Please use whatever examples you need to convey to the reader a clear understanding of your suitability for this award.

Thank You for your application.
